## Birthday Party at Home of Mr. and Mrs. Hirst Goldthorpe

A Birthday Party was held at home of Mr. and Mrs. Hirst Goldthorpe, in the Buffalo Hill district, on Friday, Feb. 3rd, in honor of Winfield's nineteenth birthday, at which assembled about twenty-five invited young people and others, to enjoy the evening in playing cards, singing and dancing to old-time music, supplemented by other instruments and was much enjoyed by all. The splendid supper was served and in the centre of the table a large three-tier birthday cake, illuminated with nineteen candles and made a very pleasing sight, with the refreshments at frequent intervals, left nothing to be desired and long to be remembered. The room was tastefully decorated for the occasion.

Towards the close of the evening's entertainment a large circle was formed with Win in the centre and all joined in singing "For He's a Jolly Good Fellow," and called on him for a speech, which he deferred to another time.

Mrs. Goldthorpe sang two splendid songs which were much appreciated, after which she said she hoped everyone present had enjoyed the evening and promised them another party before long. Miss Birdie Mitchell's solo was also much enjoyed. Mr. Goldthorpe's two comic songs delighted the party and he made an appropriate speech in which he hoped everyone had had a good time. Dancing was continued till half past three, when everyone bid good bye to a good time, in fact it could be best expressed in the term, "A Whale of a Time" and Win and family wish to thank everyone for the nice presents which were donated after the guests had departed, which had been deposited so as to give a surprise when found.

## Shouldice Waves

Mr. and Mrs. Maurice Edwards spent the week end in Vulcan.

Mr. and Mrs. McRae and daughter, Myrtle, spent Sunday in Carmangay.

Mr. W. H. Mowat spent the week end in Parkland with his parents.

Mr. and Mrs. M. C. Norton and son were guests Sunday at the home of Mr. G. E. Harp and family.

The Shouldice School just received the Agricultural Diploma which they won at the last school fair.

Last Friday night Mr. W. F. Leadbeater, Mr. W. W. Coughtry, Mr. Don Yull and Mr. G. Rottke attended the hockey game in Gleichen.

Following are the results of the delayed Christmas Examinations:

Grade II	Average
Walter Leadbeater	88.3
Lola Harp	88.3
Myrtle McRae	87.6
Joseph Holloboff	87.2
Grade IV	
Hazel Caughey	82.8
Nick Plamidin	79.3
Grade V	
Peter Plamidin	83.2

## Fire in Buffalo School

Fire in the School Basement at 12:45 p.m. on Feb. 7th Came Near Destroying the School

Fire broke out in the basement of the Buffalo School last Friday noon and had it not been for Win Brown, the building probably be in ashes by now. Owing to the blizzard raging that day and for fear that it might be worse by night, the children had all gone home. Win, unaware of this, returned to school early and was sitting at his desk doing some school work when he noticed smoke coming from the basement. At first he thought it was snow blowing but finally he went to the basement and was met by a cloud of smoke. He lost no time in getting the fire extinguisher into action but soon realized that he could not handle it single handed, so ran home and phoned the Secretary and others, than, accompanied by the rest of the family, rushed back to the school. With the assistance of arriving help, the furniture, piano, etc., was soon removed from the building. It was found necessary to chop three holes in the floor at 30' to get water on the blazing wood and coal, after some strenuous work by all, the fire was brought under control by 2:30 p.m.

The Secretary, on behalf of the School Board, desires to thank all those who turned out and worked to subdue the fire.

Had it not been for the timely arrival of Mr. Jenninjohn, Ole Nerva and Cy, with the Wyatts, it would have been a different tale to tell.

The firefighters, some of whom had not had dinner, appreciated very much the birthday cake Mr. Goldthorpe had sent to the schoolhouse and when Hirst found out that the children had gone home he made good use of the opportunity by passing it around among the firefighters, whose opinion to a man was excellent and they extend their best thanks to Mrs. Goldthorpe for the like favor.

## B.Y.P.C. NOTES

The class meeting and social of the B. Y. P. C. was held at the home of Mr. and Mrs. Rosco Shatto on Jan. 27.

The business meeting was called to order soon after the arrival of about twenty members, who answered the roll by reciting a Bible verse. It was decided that the roll call at the next meeting will be answered by a Valentine card.

After the close of the last meeting the social committee entertained with some very enjoyable games. Soon after midnight a splendid lunch was served consisting of sandwiches, ice cream, cake and candy.

The next meeting and social was to be held on February 10, but due to the severe weather it has been postponed until Feb. 17. It is to be held at the home of Mr. and Mrs. Raymond Brubaker.

Edith Harp ..... 80.2

Grade XI

Peter Plamidin ..... 83.2

Edna Harp ..... 71.7

## Annual Meeting of Ratepayers

The Annual Ratepayers' meeting was held in the village office in the Ingraham Building at 7 o'clock Feb. 6th. The meeting was very poorly attended. Mr. M. R. Leonard was elected chairman of the meeting. The Secretary read the Auditor's Financial Statement for the year 1932 and on motion by F. C. Miller, seconded by A. L. Ingalls, was adopted and filed. Discussion of Village affairs then occupied the meeting and the advisability of graveling the highway between the village and the nearest point of the Sunshine Trail was brought up and put in the form of a motion by F. C. Miller, seconded by Lewendon that the council take the matter up with the proper authorities in regard to graveling the aforesaid piece of road. At 8 p.m. the meeting was thrown open for nominations for the office of councillor. At 8:30 p.m. Mr. Leonard was nominated by E. Lewendon and J. P. Beagle. No one else was nominated and at 9 o'clock the Secretary declared Mr. M. R. Leonard elected by acclamation. The meeting then adjourned.

## Curling Notes

An interesting competition is in progress at the curling rink.

## Editorial Comment Supports Beatty Consolidation Plan

Editorial opinion throughout Canada has been very largely in favor of the proposals advanced by E. W. Beatty, C. Chairman of the Canadian National Railways, looking toward the consolidation of the two railway systems. He has proposed that the only practical means of relieving the intolerable burdens upon the Canadian taxpayer is to consolidate the two systems. Beatty made his proposal in a speech before the Toronto Club on Dec. 11, 1932. The paragraphs from leading editorials in the press clearly indicate the general acceptance of the public opinion. A total of 47 daily newspapers in Canada supported Beatty's proposal up to January 20th of which 32 were in favor of consolidation.

This is far and away the most convincing, active, and striking contribution to the discussion of our financial difficulties which has yet been made. — Montreal Gazette.

This action appears to be essential if the tremendous burden is to be lifted from the shoulders of the Canadian taxpayer. It is essential with our small population that the railway mileage and service should not outrun the needs of the country." — Halifax Chronicle Herald.

"There is much that appeals in Mr. Beatty's plan." — Mr. W. B. Beatty, K.C., Hamilton Herald.

"Mr. Beatty's call for action is timely." — Saint John Telegraph.

"There is much that appeals in Mr. Beatty's plan." — Mr. W. B. Beatty, K.C., Hamilton Herald.

"We agree with the President of the Canadian National that the country must get down to bed rock." — Mail & Empire, Toronto.

"Mr. Beatty has offered a solution of the railway problem, definite and clear. If there is no alternative, then either must either be taken over by the Canadian government or the Canadian National must be consolidated." — The Star, Vancouver.

"The Canadian National seems to be the best, the only means of getting out of the dilemma into which we have thrust ourselves." — La Presse, Montreal.

"As put by the President of the Canadian Pacific Railway, the choice before Canada seems to be whether this country would beat itself to pieces or whether it would go to the wall." — Toronto Telegram.

"The Canadian National seems to be the best, the only means of getting out of the dilemma into which we have thrust ourselves." — La Presse, Montreal.

"Mr. Beatty's plan is the only feasible way out of the dilemma in which we find ourselves." — Calgary Albertan.

"When the two systems are amalgamated, the Canadian public ownership, and the budget balanced, then that united system can be asked to work for Canada." — Vancouver Sun.

"E. W. Beatty, President of the Canadian National, has put out of the mess is the amalgamation of our two lines under one management." — Mr. G. R. Rottke, Manitoba Free Press, Winnipeg Tribune, and the Edmonton Journal.

"It would be a maddest course if the Duff recommendations were to be adopted by Parliament." — Sherbrooke Daily Star.

"Mr. Beatty's view is obviously correct in that the Canadian public movement as it is coming through out the world." — Ottawa Citizen.

"The public meeting under the auspices of the Wheat Pool, advertised for Feb. 6th, has been postponed owing to the stormy weather and bad roads.

The new rinks recently chosen were drawn against each other the winners going one way to the finals, and the losers going the other way into the finals of the consolation. Games played Thursday night in this competition resulted in wins for Miller against Melville and Board against Jay Beagle. Friday afternoon an interesting game was played between Jack Beagle and J. Hesketh. Beagle took charge of the scoring for the first half of the game, the score being 10-0 in his favor at the half mark, but the Hesketh rink made a wonderful comeback and won the game by the score of 14-12.

The President vs Vice-President Contest ended in a win for the Vice President's side. All that remains now is for the losers to furnish the supper.

We are pleased to report the continued success of the Lewendon Rink at the Gleichen Bonspiel. The rink at the time of going to press has played five games and won them all. The rink is made up of Lewendon, (skip), D. Duncan, D. Bowman, and Stewart Beagle. Here wishing them continued success.

## Reserve February 17th for the P.T.A. Dance in the School

Editorial Notes

Editorial opinion throughout

the country needs a cool-headed solution of a tough problem. We cannot afford to go on as we are doing.

The one thing that the politicians are failing to do is to realize the clear cut between half-baked quasi public ownership and real public ownership. The Canadian National is a case in point.

Consolidation of the two systems is the only practical solution of the dilemma in which we find ourselves.

It is the only means of getting out of the dilemma into which we have thrust ourselves.

The Canadian National is the only feasible way out of the dilemma in which we find ourselves.

It is the only feasible way out of the dilemma in which we find ourselves.

It is the only feasible way out of the dilemma in which we find ourselves.

It is the only feasible way out of the dilemma in which we find ourselves.

It is the only feasible way out of the dilemma in which we find ourselves.

It is the only feasible way out of the dilemma in which we find ourselves.

It is the only feasible way out of the dilemma in which we find ourselves.

It is the only feasible way out of the dilemma in which we find ourselves.

cards, and he was thoroughly frightened.

It would spell ruin to his career if the facts of the patrol became known. The blame of this shameful defeat lay squarely at his door. Baker surely realized that; Baker surely was going to use that sword against him. It was a sword that was open and avowed war between them.

Step by step, logic led him to the one and only recourse he had. If Williamson ever found out he had ordered that patrol split, he was sunk. Therefore Williamson must not find out. He must remain open and avowed war between them.

Haskell tried to still his conscience by thinking that Baker had wanted the patrol to fail. If that was so, then this massacre was exactly what the sergeant had come to him. He ought to be ashamed, and ashamed hard. . . . You've got to fight for right. . . .

Still in his muddled and torn uniform, Haskell went down the steep hill toward Haskett's cabin, intending to bludgeon some hard-earned fast terms out of the guilty inspector or shoot a complaint over his head to Superintendent Williamson. If Haskell had not given in to his demands, he meant to do it now. He was to go to the Royal Signal corps station at Resolution and dash a message to the division commander that would start an avalanche.

Over at Mrs. Domineau's house, Mrs. Jeanne and some canaries were gleaning in the windows. Across at Father Clavery's tiny hospital, Larry Younge lay fighting for his life. Up the slope of barracks Dave MacMillan was locked in a police "butterfly" with a wife who was being accomplice to robbery and murder.

Joyce had reported secretly: "Alan, I talked with him. He isn't guilty! He never had heard a whisper about these bandits, till I told him. He couldn't have deceived me!"

"I'm not surprised," said Alan. "He's been Alan's—He couldn't have deceived me!"

There was something behind that pack of funk which hadn't come to light yet and which would explain those damning circumstances.

It was his conviction that Dave MacMillan was not guilty at all. It was his purpose to fight for Dave. It was easy to realize that, but the actual job was the hardest thing he had attempted in his whole life. The only way under heaven of clearing up this mess was to get the guilty out of them or hold out his hands and sit there winging a condemned.

It was his conviction that Dave MacMillan was not guilty at all.

He was put up to fight for Dave. It was easy to realize that, but the actual job was the hardest thing he had attempted in his whole life.

The only way under heaven of clearing up this mess was to get the guilty

out of them or hold out his hands and sit there winging a condemned.

It was his conviction that Dave MacMillan was not guilty at all.

He was to lead a patrol to the Innuco.

As he strode into the cabin, he saw Haskell waiting for him, coolly smoking a cigarette. It seemed to Alan that this man acted like an honest guy when he was the patrol leader, but without the six bandits and with Constable Younge desperately wounded. He knew the details of that patrol already; Whipple had come up and privately told him that Haskett's bandits had been sent to the Thal-Azah, as Baker had warned. How Baker had run those six to earth and cornered them. How Fedoneault and the other two constables had been a hundred and forty miles away during that crucial night.

As he knew, this crime was the most spectacular in years along the Three Rivers. The defeat administered to the police was the most stinging in a decade. This incident would have reverberations at headquarters, and the public demand would be investigate. The very first question of that veteran old officer would be:

"Why in h—l did you order Baker to divide that patrol? Splitting up his detail that way—don't you realize that your men would be liable to handle those criminals?"

Not defending himself, Haskell knew he was caught. He knew he had made a capital mistake in the force where a few months ago he had been promoted to captain. He had been responsible for the entire failure of his prospects of promotion in service, of smashing Alan Baker, of winning Elizabeth Spaulding to himself, had come tumbling down like a house of cards.

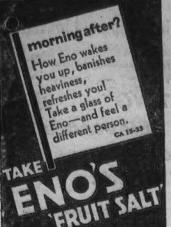

**WEAK WOMEN**  
Take Lydia E. Pinkham's  
Vegetable Compound

Have you ever felt that you were too weak to do anything . . . that you did not have the strength you wanted? Women who are weak and worn out should take a tonic such as Lydia E. Pinkham's Vegetable Compound. It cures aches and headaches that are the result of stress, run-down conditions often find in women.

99 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your druggist today . . . and watch the results.

CHAPTER V.—Continued.

Alan swore to wield this in his hands.

By mid-afternoon of that infernally dry day they came to the first straggling trees at the Thal-Azah edge. At deep twilight they reached the Alaska Forks and the anchored launch.

Pedneaud had just returned from his useless trip up the south branch. In a few words he understood all that had happened. With one glance at his spent and staggering partners, he took off his heavy burden from their shoulders.

Alan fung himself down beside Bill, driven to the limit of human endurance. His last waking thought was the grim realization of knowing that he held a sword over his guilty arrogant officer and could bring him to account at last.

In his cabin Inspector Haskell sat behind his desk, waiting for Alan Baker to come in and report. Baker was thinking, thinking hard; and for all his self-control his nerves were bumping.

Over in a corner Whipple sat at the table, pretending to write but in reality waiting there, as Haskell had bidden him. Something cold had gripped Haskell's hand an hour ago when he had passed the patrol returning without the six bandits and with Constable Younge desperately wounded. He knew the details of that patrol already; Whipple had come up and privately told him that Haskett's bandits had been sent to the Thal-Azah, as Baker had warned. How Baker had run those six to earth and cornered them. How Fedoneault and the other two constables had been a hundred and forty miles away during that crucial night.

As he knew, this crime was the most spectacular in years along the Three Rivers. The defeat administered to the police was the most stinging in a decade. TEN MILLION JARS USED YEARLY

BURGON there at the trading post, shorthanded as we are, to get the furs and trade goods."

"That's MacMillan's lookout. I'll have to instruct Fedoneault to get Burgon tomorrow."

"But Miss Joyce expects to return there. She has good reasons. What protection do you intend to give her?"

"If she insists on returning, I don't feel any responsibility. This isn't an orphanage; it's a Mounted Police post."

"Alan entered my office in his capacity as a constable. He was a decent man, and he had a good attitude toward his duties, fearless, strict, and efficient."

"The constable and chicken警官 of British Columbia would get cheaper feed grain as a consequence. A large market exists in the coast provinces for this commodity."

The action under discussion would enable the prairie farmers to find a wider market for their No. 6 grade Western farmers have a large market for their No. 6 grade grain."

"The situation is urgent review in the way of reduction of domestic freight rates on feed grain westward."

We cannot know them all. These ancestors of ours who left us through the long, slow Such strangely varied dovers.

One gave me wistful dreams. And love of wind-tossed foam. Another gave a heart that clings to the rock, and to the sea.

One gave me truth and trust, and pride and fire. The gift of one was faith enough To grasp my heart's desire.

One gave me strength and courage. One who fought and dreamed; So through my veins the celestial blood has streamed.

And sometimes I must ask, How safe or strongly runs, How much of this my I, How much those other ones?

New Bow for Violin

German Flidor Finds Silver Wires

for Guitars

For centuries past the violin bow has been made of horsehair. It is perhaps a lucky thing that, just as the horse is disappearing, a German fidor has invented a bow string with silver wires. These wires are of about the same diameter as the hair, but they are slightly roughened on the surface they vibrate the strings perfectly without the use of resin. The tone, it is claimed, is far better than the ordinary bow. It is not commercially available on this continent as yet.

About \$400,000,000 worth of gold is produced each year.

Roxbury, Scotland, has officially banned Sunday golf.

To Be Continued.)

Gin Station For Planes

Filling stations for light aeroplanes have been established near Berlin, Germany. Pilots of private aircraft can now fuel up their planes and take their passengers to the airport without going to the trouble of landing at airports. A large funnel is used to make sure that the gas will go where it is needed without spilling.

Haskell interposed. "What do you mean? Who was he? Can he be up again?"

"That's Dave MacMillan. My opinion is, he's entirely innocent. There's no call to send him outside to Edmonton. A travelling court is coming down the Three Rivers in August, and his case can wait for that. He can be kept here, or released on bail. Don't you think that would be best?"

"I'm afraid that's what he wants. He's been a real troublemaker ever since he got here."

"That trader won't be released," Haskell said flatly. "I'd decide whether to keep him here or send him outside to Edmonton."

Damissova David MacMillan's flight with a curt gesture, he demanded: "What made you leave Constable

China?"

Several model textile mills will be built by Kwangtung Province of China.

## New Motor Fuel

Using Common Charcoal Or Coke To Drive Engines

Science is revolutionizing the fuel we burn for locomotion.

Mr. N. G. Jones, of London, England, claims to have invented a means of using common charcoal coke as the basis of fuel for motor vehicles, which is more economical than petrol or coal equivalent to petrol at 2d. a gallon.

His apparatus consists of two units—a gas producer, and a cleaner and filter. In operation, the passage of air and water vapor through an incandescent mass of charcoal creates a gas which is compressed into the cylinder and mixed with air forms an explosive mixture. His apparatus, it is said, can be attached to any commercial vehicle, and also to stationary heating oil plants.

A company is soon launching this process on a commercial basis in Britain, and it is stated, that, during the course of a year, they are hoping to produce a more compact apparatus for the use of private cars.

## Adjust Freight Rates

Domestic Rates On Feed Grain Westward May Be Reduced

Reports are prevalent that the domestic freight rates on feed grain westward are to be reduced, in the interest of benefit to Saskatchewan, Alberta and British Columbia, and to a lesser extent to Manitoba.

Domestic freight rates are higher than export rates. In the schedule under consideration, the difference between the two is likely to be from 40 to 50 per cent.

The action under discussion would enable the prairie farmers to find a wider market for their No. 6 grade Western farmers have a large market for their No. 6 grade grain."

The situation is urgent review in the way of reduction of domestic freight rates on feed grain westward."

The mystery of a deer with a bell around its neck has followed hunters about the woods near Ashland, Wisconsin, has been explained.

Claude Manley and E. V. Needham reported that they were trailed by the bell deer recently while hunting in the woods near the village of Wisconsin Dells.

Paul Binsfeld identified the deer as the apparently motherless fawn which woodsmen found wandering near their camp three or four years ago, and which they raised on a hotdog.

The deer refused to leave the neighborhood when it became full grown, and returns regularly for meals, Binsfeld explained. Often it will trail a couple of dogs, and when it comes to woodsmen hunting too far from camp to return for meal, he said.

A piece of red cloth is attached to the deer to prevent hunters from killing the camp pet, and during the open hunting season its protectors strap a bell around its neck as a further precaution, Binsfeld said.

There is no action so slight or so mean but may be done to a purpose, and embodied therefore; nor is there any purpose so great but that slight actions may help it.—H. E. Manning.

Russians Discontented

As Dissatisfied As Under Czars Says British Author

The Russian masses are dissatisfied today as they were under the rule of the czars, Major F. Yeats-Brown, British author and sportsman, said while visiting Milwaukee on a lecture tour.

"Thoughts of revolution run thick among the crowds of the Russian masses today," he declared. "They are discontented with their lot under the Soviet regime and tired of the starvation rations upon which they are forced to subsist because of the abject poverty of the land."

The author of "The Lives of a Bengal Lancer" and "Bloody Years" recently returned from a visit to Russia. He said only the army there is well fed, adding that "the Soviet government sees to that because a well equipped army can stave off revolution."

Sounded Like Plural

The English Alpine visitor was met in the lounge of the hotel by a friend.

"Ah," exclaimed the latter, "I've heard about you that you climbed the Matterhorn. That is a foot to be proud of!"

The Alpine visitor replied: "Yes, sir."

"Pardon me, sir," he said, "you must be fast!" do you not?"

"Ah," said the Frenchman, greatly excited, "so you climbed it more than once, eh?"

Copied In Mosaic

Nearly 300,000 pieces of glass were required to make a copy in mosaic, 23 feet long and 12 feet high, of Leonardo Da Vinci's famous painting, "The Last Supper," now being shown in the Pergamon Museum in Berlin.

time ago for their distribution. They will be made available not only to public bodies for beautification of public grounds but also to individual farmers who have wooded bluffs already established on their farms. Who are ready to work of re-establishing continuous growth in the farm areas by securing these trees from the Oliver plantation and planting them in their poplar bluffs. While only a limited number of these trees will be available the coming spring, in another season a very much larger number will be available and it is hoped that through this method of distribution, within the next decade continuous growth will once more have been introduced over a very wide area of the parklands of the province.

## Horses Sell for a Dime

Bowling Green, Ohio—Eight hundred grim-faced Wood country farmers silenced a finance company bidder by their numbers and bought about \$800 worth of a neighbors property at auction for \$14—and told him to keep it.

Whether the sale was legal, however, was a debated point. It was held at the farm of Wallace Kramp, who lives four miles west of here. Kramp himself conducted the auction in accordance with an agreement with the Intercity Finance company and others to satisfy an \$800 mortgage they held on his property.

When the auctioning started Kramp's neighbors for miles around had gathered at his place. Prosecutor Raymond E. Ladd and Sheriff Bruce Platt also were there "to maintain order," they said.

The first item offered, a spring harrow, brought a bid of 1¢. The bid stood until John Cross, manager of the finance company, spoke up.

"One dollar and thirty-five cents," he said.

"That's the guy that owns the mortgage," someone shouted.

Immediately the farmers stopped bidding and escort Cram some distance away.

Then the bidding was resumed with horses selling for a dime and plows for a nickel.

Allen Lane of Bowling Green president of the local farmers Holiday Association organized last fall and a spokesman for the farmers, later said:

"Such methods are the only kind we have to bring the condition of the farmer before the public. There is not a communist in the entire group. We are all loyal Americans."

It was the first occurrence of its kind in Ohio.—Nelson News.

## Caragana Seedlings for Schools

In an effort to assist school districts, municipalities and other public bodies to improve the surroundings of schools, public buildings and community centres, the provincial government will commence this spring the free distribution of a surplus of nearly three million caragana seedlings from the provincial forestry plantation at Oliver near Edmonton. Distribution will also be made to farmers and other individuals who apply for supplies. The seedlings will be supplied on application, in bundles of 50 and 100, and the only expense for the applicant will be the cost of express and other carrying charges from Oliver. It is suggested that the caragana may be secured by school boards and municipalities for beautifying school grounds cemeteries, the surroundings of public buildings, churches, etc. In this connection, as announced some time ago, the government is also in a position to supply a certain number of young spruce and pine trees from the stocks developed at Oliver plantation. Already a number of applications have been received by the provincial forest service branch for supplies of these young trees. Under the policy announced some

## Here and There

"The decrease in freight car loadings which began in 1920 has continued during 1932. In 1931 up to the end of the first week of December, 55,459 less cars were loaded on all Canadian Railways than for the same period of the previous year. Last year 376,115 less cars were loaded than in 1931. The decline in passenger traffic has been equally, if not more, marked than the same. The result reflected upon railway earnings has been a corresponding decline in the first ten months of 1931 Canadian Pacific gross revenue declined 20 per cent. compared with that of 1930. For the first ten months of this year, now ending Dec. 31, 1932, the decline in earnings is 16.4 per cent. The decline continues, and there certainly appears to be no end in sight. That for many years we shall see them entirely eliminated and our railroads become bankrupt is not far off." —E. W. Beatty, K.C., Chairman and President, Canadian Pacific Railway, in his review of 1932.

In the vanguard of the winter vacation traffic to the South Seas and the Orient, the Canadian Pacific liner "Empress of Japan" cleared the Narrows at Vancouver January 18 with a list of 411 passengers.

Recent payment by Great Britain of \$35,550,000 war debt installment reminds old-timers of the days when the British Empire was shipped by Canadian Pacific Express from Asia to England, Canada, and was carried across the Dominion by Canadian Pacific train, having absolute priority. The train traveled without light and was protected by scores of armed guards.

"Dark and uncertain as the outlook may appear to the casual observer, the situation in a wider field the year has not been without important developments in the field of world stabilization and encouragement," W. Beatty, K.C., Chairman and President, Canadian Pacific Railway, in his review of 1932.

"Through intelligent education the economic and social utility of war will eventually be recognized by the public," said William Angel, British economist and dialectic of war illusions. He sailed by the Canadian Pacific liner "Montrose" after a lecture tour in the United States.

Of the 4,046,612 pounds of canned pineapple consumed in Canada during 1931, 3,232,000 pounds were shipped to the United States. In October 30, 1932, all but 165,833 pounds came from countries within the British Commonwealth, the remainder being from the Strata Settlements.

Iliteracy in Canada is near the vanishing point. According to the last census in 1931, 32.3 per cent. of the population aged 14 and over in 1931 five years of age could either read or write. Students enrolled in secondary schools in 1931 numbered 2,512,747.

The Canadian Pacific Railway Company's tax bill for the year will amount to \$11 million dollars bringing its total tax bill to \$11,000,000. The tax collections since incorporation to about \$118,000,000. —B. E. Beatty, K.C., Chairman and President, Canadian Pacific Railway, in his review of 1932.

## Why Not a Little Optimism?

It is generally conceded by the leading men of the country that the much-talked of bugbear, "Depression," will soon be put to route. Be as it may, it begins to look to us as though we should soon be experiencing better conditions. Industries are looking up, factories are gradually putting more men to work. The tendency of grain prices is upward, and now if we all get the idea we really are improving, it should have a wholesome effect.

It is not too early to begin to plan for your spring operations. We may have, or be able to secure for you, that second-hand piece of machinery that you will need for your spring work. Come in and let us over your wants with us, so that we may be in a better position to serve you. We have spent better than thirty years of our life as a "bad buyer" and believe that we can talk over farming operations intelligently with you.

Your car, truck or tractor may need overhauling before you start the spring grind. We are equipped to renew your motor and bring it back to its original factory condition. For cylinder work we use the celebrated Summer House, which is guaranteed to true a cylinder hole within one half of one thousandth of an inch. With this tool we can handle cylinder bores from 2 11-16 to 6 inches and renew power and operation. If your motor or engine is heavy on oil or sluggish, it is a sure sign you need our help.
